MEDICINE of THE HIGHEST ORDER

# Medical Aesthetics

Rejuvenate ■ Rehydrate ■ Restore ■ Relax

## Customized Facials

Our facials begin with a personalized evaluation of your specific skin care needs. We will recommend a treatment that will provide you optimal results based upon your individual skin's needs. Each facial will include deep cleansing, exfoliation, extraction, facial, neck, shoulder and hand massage. Following your facial, you are invited to enjoy a complimentary makeup application.

**Anti-Aging Facial** – featuring a unique blend of antioxidants and hydrators, our anti-aging facial uses techniques designed to slow the damaging effect of time, restore moisture and improve your skin's texture and tone.

**Deep Pore Cleansing Facial** – with antibacterial ingredients, deep cleansing of the pores and follicles rids your skin of excess oils that tend to clog and block your skin's ability to maintain healthy nourishment.

**Re-elasticizing Mask** – the calming and soothing properties of this algae based mask are used to restore moisture and re-mineralize dehydrated, sun damaged or rosacea skin.

**Signature Facial** – using your personalized evaluation, we will customize a soothing and aromatic facial that will boost cell metabolism while leaving your skin bright and rejuvenated.

**Sinus Relief Facial** – following a cleansing facial, a balance of essential oils are used with a pressure point massage to release fluids from your sinus cavities as well as decompress puffiness around your eye area.

## Peels

**Chemical peels** are effective in treating surface damages of the skin. We offer varying strengths and blends of chemical peels, customized for your skin's needs. These advanced treatments gently work to improve the texture and hydration level and can be used to lighten, brighten and tighten your skin.

**TCA (Trichloroacetic Acid) Peels** are used to improve skin's texture, reduce fine lines and hyperpigmentation and treat some types of acne and sun damaged skin.

- Sensi Peel<sup>®</sup>
- Ultra Peel<sup>®</sup> I
- Ultra Peel Forte<sup>®</sup>

**Enhanced Jessner Treatments** are medium depth peels that work to remove and heal skin damage that is more pronounced found in acnetic skin or maturing skin.

- PCA Peel<sup>®</sup> Hydroquinone Free
- PCA Peel<sup>®</sup> with Hydroquinone
- PCA Peel<sup>®</sup> with Hydroquinone and Resorcinol

**Retinoid Treatments** are a creamy mixture that creates a barrier on the skin allowing vitamins, antioxidants and other beneficial peel ingredients to be absorbed in to the skin for maximum treatment benefits.

- Ultra Peel<sup>®</sup> II
- Esthetique Peel<sup>®</sup>

## Additional Services

### Eyebrow Shaping and Facial Waxing

**Makeup Consultation and Instruction** – let us introduce you to a mineral based makeup line that will amplify your natural beauty. We will take the time to develop a personalized makeup profile and demonstrate the makeup application that is right for you.

## Peel Alternative Treatments

We offer peel alternative treatments that will help to keep your skin free from environmental pollutants, leading to a brighter and clearer complexion.

**Oxygenating Trio** – an antioxidant therapy that corrects and prevents the oxidative and environmental stresses placed on the skin. This three step treatment stimulates circulation, drawing oxygen to the surface of the skin, resulting in a radiant complexion

**Detox Gel Deep Pore Treatment** – a detoxifying treatment for all skin types that can be targeted to specific facial areas. This blend of three acids penetrates pores to dissolve impactions, kill bacteria, reduce inflammation and remove excess debris, leaving your skin hydrated, purified and clear.

**Salicylic Acid Mask** – formulated for acneic skin, this mask combines antibacterial and anti-inflammatory components used to quickly and effectively clear and prevent breakouts.

**Pumpkin Mask** – this nutrient rich treatment combines exfoliating enzymes, salicylic acid, antibacterial and antioxidant ingredients used to treat rougher textured skin resulting in a healthier complexion.
