*** SAVE THE DATE ***

SCORE Half-Day Seminar
Tuesday – Wednesday
June 1 – 2, 2021
Time: TBD

"Diversity in Research"

URMC Study Monitor Visits

The NYS travel guidelines are still in effect and must be followed even if the site monitor has received a COVID vaccine.

Visit this website for the URMC process for Study Monitor Visits.

Most Vulnerable Often Overlooked in Clinical Trials of New Treatments for COVID-19

Studies examining the effectiveness of treatments for COVID-19 often do not include the very populations hardest hit by the disease.

Read the full article on the ACRP website.

Informatics Consultations

Plan, access, analyze and manage data throughout the course of your studies:

- Study Design & Planning
  - Discuss the best study design for answering your research question.
  - Plan approaches to capture, organize and transform data to support your research needs.
  - Make plans to utilize eRecord and other clinical systems to support your research project, including reviewing the types of data that exist in eRecord and how that overlaps with the types of data you need.
- Clinical Data Requests
  - Determine sample sizes and feasibility of your clinical studies with the TriNetX cohort discovery tool.
  - Request access to clinical data and get support with clinical data extraction.
- Data Analysis
  - Make plans to develop or apply analytic and statistical methods to biological data.
