

Strong Memorial Hospital is **GROWING**

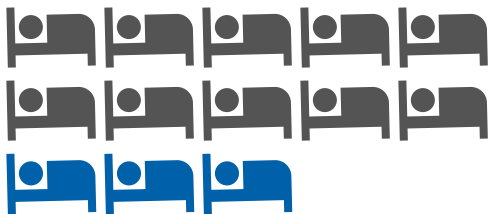

66%

More patient visits to ED
2001-2021

Growing Need

Our ED sees over 100,000 patients per year, and we're responding to the growth with a long-term project that will greatly expand, modernize and decompress our current space.

**All Private Rooms,
Modernized Facilities**

Growing Facilities

New construction will nearly triple the size of our ED and eventually make all inpatient rooms private.

Your residency experience will benefit from improvements that will not only serve patients, but make a better space for faculty, staff and trainees to learn and work.

Growing to Continually Deliver Medicine of the Highest Order

2001

New ED Opens with...

State-of-the art ICUs for burn trauma and pediatric care

2008-2012

Wilmot Cancer Institute

164,000 sq. ft.
