

**Elizabeth Rosen, MD**

Resident Physician  
University at Buffalo

Dr. Rosen is a PGY3 at University at Buffalo in the Child Neurology residency program. She completed medical school at St. George's University School of Medicine in 2019 and residency in Pediatrics at the University at Buffalo in June 2021. She began her Neurology training subsequently upon completion of Pediatrics and is currently in her Adult Neurology training year. Dr. Rosen currently serves as a QI resident liaison of the Adult and Child Neurology residencies at University at Buffalo, as well as a Pediatrics/Neurology STEP Prep preceptor for St. George's University School of Medicine. Her main research interests within Child Neurology have been focused primarily on Pediatric Neurocritical Care, specifically with patients who suffer from traumatic brain injury and various disorders of consciousness. She was Neurocritical Care Society's Mentor/Mentee Award Winner in 2022 for her research in Developmental Aspects Relevant to Recovery from Pediatric Coma and hopes to continue to be a pioneer in this new and evolving field. Her interests outside of medicine include street and commercial hip-hop dance, skiing, and practicing her Jewish faith and traditions with family and friends.
