

WRHEPC Health Coalition Emergency Management Seminar 2022 Pediatric Emergency Preparedness Recorded Webinar Series: WRHEPC-PEDSEMINAR2022-ONLINE

Overview: The 2022 Healthcare Coalition Emergency Management Recorded Webinar Series: WRHEPC Pediatric Emergency Preparedness will provide a broad overview of potential care needs for the pediatric patient involved in an emergency/disaster situation. The goal is to improve collaboration of the local healthcare community towards the best pediatric care possible. The webinar series will include information for medical, trauma and crisis response specific to the most vulnerable population in any emergency event, children.

Program Objectives:

- Recognize healthcare outcomes and advance the care of our pediatric population through pediatric focused education for our community healthcare partners.
- Identify knowledge in the initial and ongoing treatment of pediatric trauma, respiratory, neurological and infectious disease emergencies.
- Describe the concepts of surge with specific focus on pediatric implications in a disaster event that are unique to the pediatric population, as well as discuss the impact of those considerations on planning and response efforts.

Target Audience:

These recorded modules are targeted to a broad cross section of Hospital, Diagnostic and Treatment Center professionals, First Responders, Public Health and Emergency Managers that may be involved in any emergency situation requiring emergency response, medical care and short or long term clinical support of children.
