

WRHEPC Health Coalition Emergency Management Seminar 2021 Trauma Management for Rural EMS and Community Hospitals Recorded Webinar Series: WRHEPC-TREACH-2021

Overview:

The 2021 Healthcare Coalition Emergency Management Recorded Webinar Series: **Trauma Management for Rural EMS And Community Hospitals (Trauma REACH 2021)** is designed to better prepare hospital and non-hospital response partners in planning, mitigating, responding to and recovering from natural and man-made disasters that impact the delivery of health care in a community or impact the environment of care for responders. The goal of the 2021 recorded series is to enhance knowledge in the management of multi-injured patients and to understand the importance of working as a team of professionals in caring for patients with life-threatening traumatic injuries in the rural EMS setting and community hospitals. Relevant information and stimulated discussions will focus on best practices in the management of trauma/disaster patients.

Training Objectives:

- Better prepare and respond to mass casualty events in the rural community
- Differentiate severity of injuries across multiple mechanisms
- Discuss management and destination decisions for the multi trauma patient

Target Audience:

This recorded webinar series is targeted to a broad cross section of Hospital, Diagnostic and Treatment Center professionals, First Responders, Public Health and Emergency Managers that may be involved in any emergency situation requiring emergency response, medical care and short or long term clinical support of trauma patients
