

Good News

from the University of Rochester Medical Center

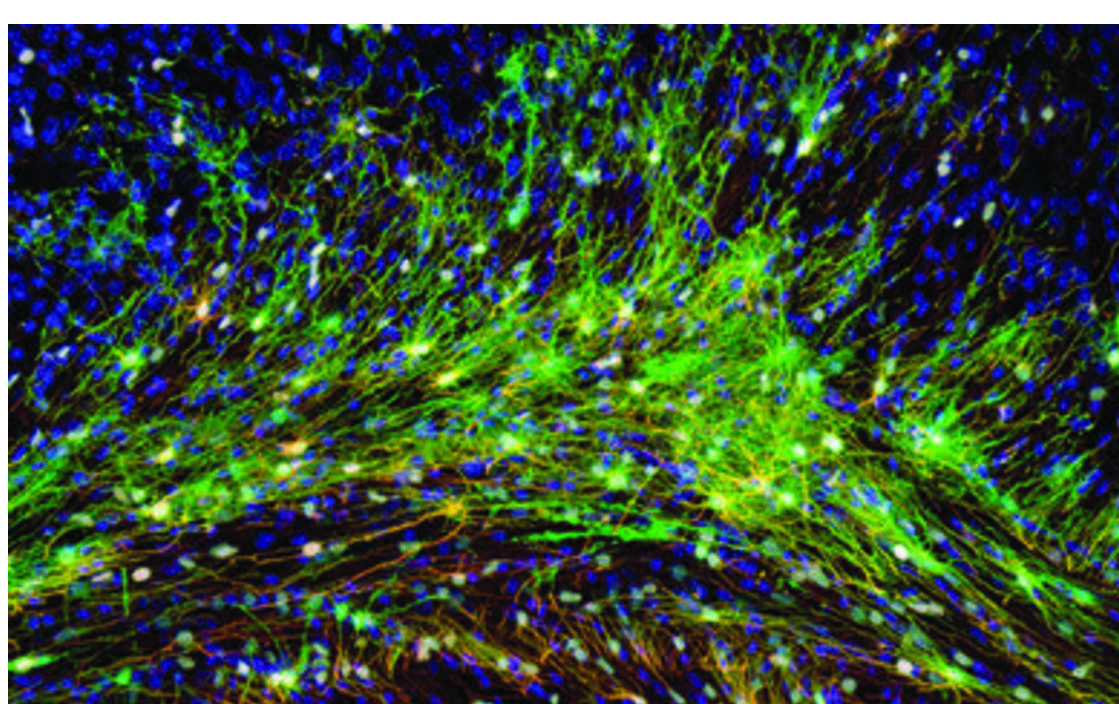

News for friends of the Medical Center.

Updated COVID boosters are here! Here's what you need to know.

The new COVID vaccine boosters target the most recent dominant subvariants of the coronavirus and can help keep you protected as we all begin to gather inside once more.

Ovarian cancer detection takes a step forward, thanks to Wilmot

A simple blood test can predict cancer in people who have a lesion or cyst in the pelvic region, according to a new study in the Obstetrics & Gynecology "Green" journal. The non-invasive test, which leverages new technology, may detect cancer earlier and improve care.

Help us build a new pediatric behavioral health clinic at Golisano Children's Hospital.

In the midst of a behavioral health crisis, each and every child, youth, and family in upstate New York deserves to have the best life-saving care. URM is building an immediate access walk-in center to provide mental health emergency assessments, community-wide coordination of youth family crisis services, and develop innovative best practices for crisis intervention.

Social media highlight

A screenshot of a Facebook post from Strong Memorial Hospital. The post text reads: "The U.S. has reached an extraordinary milestone: 1 million organ transplants! More than 5,000 people (and counting!) have received life-saving transplant surgeries at Strong Memorial Hospital, thanks to the generosity of organ donors and their families. Our care teams are privileged to provide second chances. See more about our programs: https://urmc.info/sO #BestGiftEver Finger Lakes Donor Recovery Network United Network for Organ Sharing". Below the text is a graphic that says "Honoring & celebrating 1million TRANSPLANTS LivingItForward.org". The graphic includes the logos for UR MEDICINE and UNOS (United Network for Organ Sharing) with the tagline "and the donation and transplant community Saving lives together". At the bottom of the post, it shows 84 likes and 8 comments, 27 shares.
