

The Program for Advanced Immune Bioimaging presents the:

4th Annual Immune Imaging Symposium

November 3, 2018 University of Rochester, NY

Featured Speakers:

Michael Dustin, PhD. Oxford

*Dynamics and Structure of
Immunological Synapses*

Matthew Krummel, PhD. UCSF

*Imaging the Patterns of Immune
Detection and Control*

Susan Schwab, PhD. NYU

*Exit Strategies: S1P Gradients and
T cell Migration*

Philippe Bousso, PhD. Pasteur

*Dissecting Mechanisms of Tumor
Immunotherapies at the Single cell Level*

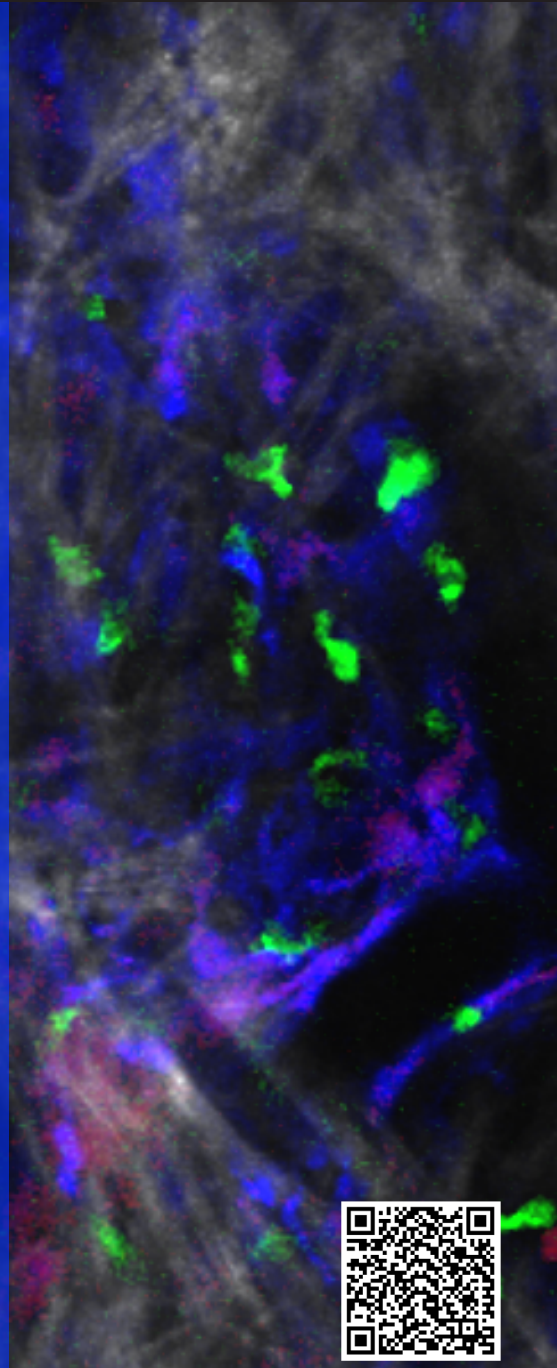

Morgan Huse, PhD. MSK

*Mechanical Control of Cytotoxic T cell
Function*

Patrick Oakes, PhD. UR

Mechanics of CD4 T cell Migration

+ Short Talks

Saunders Research Building

8:30 am – 5:30 pm Lunch and Cheese & Wine Reception
