Add A Sticky Note
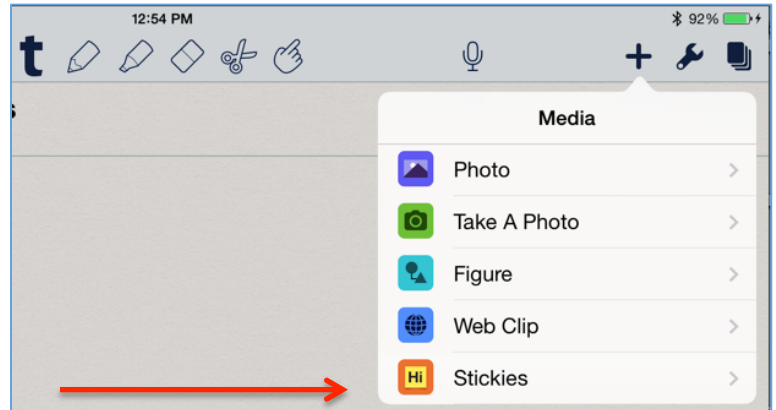

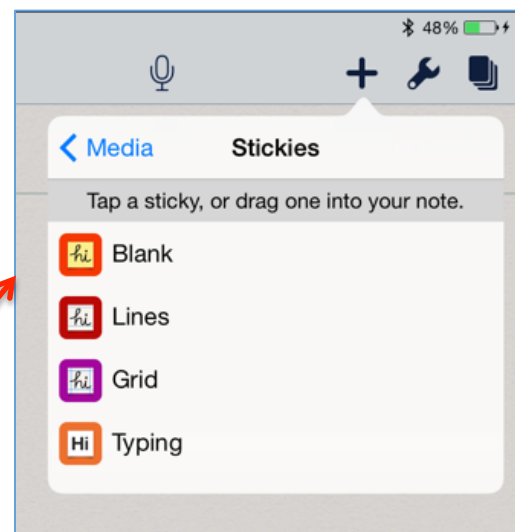

Open the media box by tapping the **+** sign.

Tap Stickies.
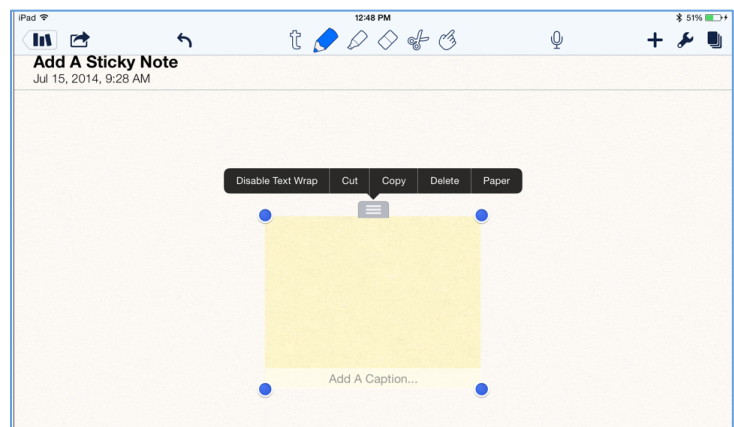

The first 3 choices: **Blank, Lines** and **Grid** are sticky notes for writing on.

The 4th one, **Typing**, is another way to add a text box to a note. See the section, Typed Notes in Notability, for a quicker way to add a text box.
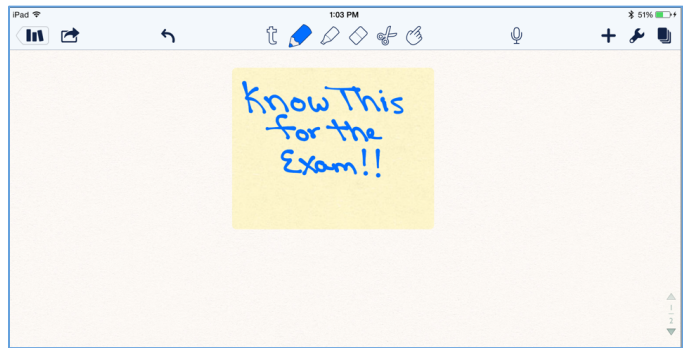

Tap Blank

A colored box with with handles, for resizing and moving, will appear, as well as a space to type in a caption for the note.

Tap out side of the sticky note to remove the handles.

Select the colored pencil icon from the tools menu and begin to draw or write.

The magnifying glass can be used on a sticky note.
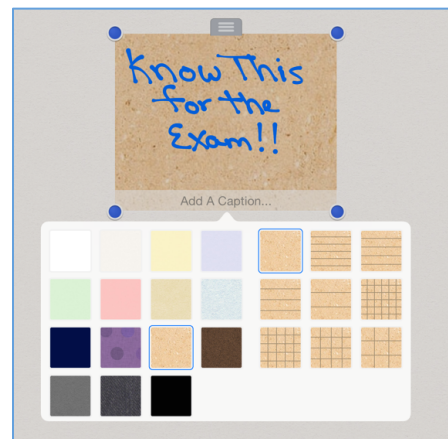

Change the sticky note paper:

Select the note by first taping the t icon, and then tap the note.

Select Paper from the menu that appears.
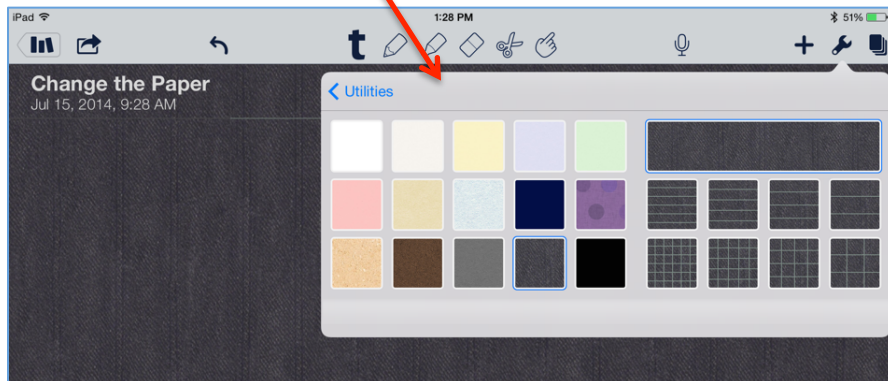

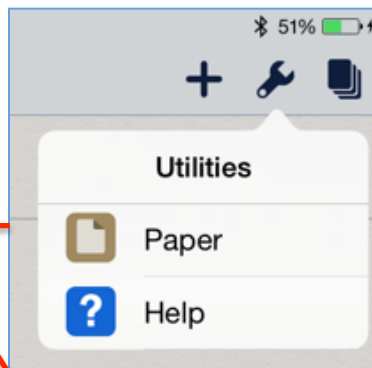

Select a different note color.

Adding grid lines or horizontal lines can be done here also.

You can resize the sticky note after drawing on it; however, the drawing itself will remain the same size.

The wrench icon (Utilities) lets you changed the note paper and add grid or horizontal lines, and access the help menu.

Export Your Notes

Notability offers a variety of options for sending your notes out.

In a note, tap the export icon and make your choice.
