Siri

Siri helps you get things done just by asking. Send a message, dictate a note, even find a restaurant.

To use Siri, press and hold the Home button or say "Hey Siri" anytime.

Set Up Siri

[Turn On Siri Later](#)

Siri sends information like your voice input, contacts, and location to Apple to process your requests. [About Siri](#)

Diagnostics

Help Apple improve its products and services by automatically sending diagnostic and usage data. Diagnostic data may include location. You can also help App Developers improve their apps by choosing to share your app activity and crash data with them through Apple.
