

# About the Ann and Carl Myers Cancer Center

The Ann and Carl Myers Cancer Center is a collaboration of UR Medicine's Wilmot Cancer Institute, Noyes Health, Jones Memorial Hospital, and UR Medicine Radiation Oncology.

With the opening of Ann and Carl Myers Cancer Center in Dansville, we are delighted to offer:

- Precision medicine that targets cancer cells more effectively while protecting healthy tissue
- Clinical trials that give you access to cutting-edge treatments
- 4,500 sq. ft. radiation oncology clinic with a state-of-the-art linear accelerator
- 2,300 sq. ft. medical oncology clinic with three exam rooms and five chemotherapy/infusion bays
- Medical oncology consultation services at Jones Memorial Hospital in Wellsville and at Wilmot Cancer Institute in Hornell

The full project has an estimated cost of \$8 million. Ann and Carl Myers of Springwater, Livingston County, provided \$2 million to support the creation of the cancer center. In addition, UR Medicine, Noyes and Jones contributed, as well as many local individuals and service groups who made donations and organized events to help fund the Ann and Carl Myers Cancer Center. We are grateful for the support of so many people in our local communities for this important project!
