Associate Chair of
Education
Department of Psychiatry

31st Annual Intensive: *Integrated Care and Medical Family Therapy*

Our *Annual Intensive on Integrated Care and Medical Family Therapy* is one week (Monday—Friday) of interdisciplinary training that blends clinical presentations, small group learning, and skill development. The primary goal is to provide training for professionals interested in health care and mental health collaboration when working with patients and families dealing with illness, health concerns, and trauma.

Participants will:

- Develop individualized goals at the beginning of the intensive, as well as discuss and assess their attainment during the final group discussion.
- Work in small groups convened by a core faculty whose focus will be the influence of family of origin and personal experience in one’s professional work. The groups will also provide context for case and systems consultation.

Our 31st Annual Intensive will be a **hybrid event (in-person/online)** from:

~ *June 17 to June 21, 2024*

First day of registration: April 1, 2024

Last day of registration: May 20, 2024
