solutions for Multiplex protein detection and other high-impact assays

Join us for coffee and a short overview of MilliporeSigma's offerings designed to fit your research objectives. We will review the advantages of detecting up to 50 analytes in one small (25 µl) biological sample using MILLIPLEX® kits with Luminex® xMAP® technology and discuss recent additions to immunoassay panels for metabolic disease, inflammation, toxicity, neuroscience, and cell signaling research. We will also outline other new products and tools for protein biology, spatial genomics, genome modulation, and advanced cell culture.

Date: November 13, 2024
Location: Conference room K-307, 3-6408 MC
Time: 10:00 - 11:00 AM
