Office for Academic Affairs – Important Links and Information

- Academic Affairs Homepage: <http://oaa.urmc.edu>
- SMD Regulations of the Faculty: [SMD Regulations of the Faculty](#) (revised October 2017)
- UR Faculty Handbook:
http://www.rochester.edu/provost/assets/PDFs/Faculty_handbook.pdf (updated October 2021)
- Faculty Roster – Developed and managed by OAA, Faculty Roster is a comprehensive database of faculty appointment information in the School of Medicine & Dentistry. Faculty Roster is used to track and manage all faculty appointments. Contact Tammy Michielsen or Lori McBride for access.
- UR Faculty – Faculty Information System (Powered by Interfolio). A University project with the goal to increase operational efficiencies and data processing, The first of four modules initiated in June 2023, Faculty Search, to facilitate Faculty Postings and Recruitment. Additional modules will be added later 2023 into 2024.
- Recruitment Form: Recruitment forms are required for all full-time or paid part-time faculty (0.5 FTE or greater) positions. The Faculty Recruitment Form is continually revised and updated to reflect current financial data; please ensure you download the current version from the OAA website. Job postings may be processed independently of the recruitment form so the position may be posted to FIS/UR Faculty to begin the mandatory 30-day posting period. See [Recruitment Form and Offer Letter Process](#) for details.
- Offer Letters: All offer letters for paid faculty [full-time (1FTE) and part-time (0.5FTE or greater)], and TAR (.49 FTE or less) *regardless of rank*.
 - Require the signatures of the Department Chair (and Center Director, when applicable) *and* the Dean of the School of Medicine and Dentistry and must utilize the standard offer letter template and relevant standard terms and conditions document (see your Office of Counsel representative for this template and document).
 - All offer letters must be approved by the Office of Counsel prior to forwarding to Academic Affairs.
 - All offer letters must come to the [Office of Academic Affairs](#) who will facilitate Dean review and signature.
 - An approved recruitment form must be on file in Academic Affairs in order for an offer letter to be signed for all offer letters 0.5 FTE or greater.
 - Offer letter templates are found in Box/ Offer Letter Materials – one primary department staff member who facilitate offer letters is granted access. Please be sure to notify the Office of Academic Affairs if/when there needs to be a change in access.

- Drug Screening: A drug screen is required for all new paid faculty (full-time, part-time, and TAR) and some visiting faculty, and anyone who requires a medical staff appointment. The drug screen is included as part of the initial credentialing process for the medical staff appointment. For those *not* requiring a new medical staff appointment, current voluntary faculty member that will now be paid by UR, departments should schedule the drug screening appointment with Employee Health as “research only”. This stipulation is in the Standard Terms of Employment document that all new paid hires agree to when they sign their offer letter. It is the hiring department’s responsibility to facilitate a drug screening appointment for incoming faculty.
- I-9: It is the responsibility of the hiring department to ensure that each candidate completes the I-9 prior to their start date. OAA will verify I-9 completion prior to approving a faculty appointment. Due to the highly confidential nature of the I-9, please do not submit the I-9 or supporting documentation to OAA.
- Faculty Demographics Form: The form can be found at Appendix G; note this form is only for Dean’s Office use and will not be forwarded to the HR Service Center.
- Intellectual Property Agreement Form (IPA): Signed, original IPA should be forwarded to the Office of Research & Project Administration (ORPA, Box 270140); a copy of the IPA should be included with original appointment packet as appropriate. Link to form (*revised 11/2009*): http://www.rochester.edu/orpa/assets/pdf/form_ipa.pdf
- Explanation of Full-Time vs. Part-Time: Full-Time faculty are 1 FTE (full-time effort) and are entitled to full-time faculty benefits. Part-Time faculty are 0.5 FTE - 0.99 FTE and are entitled to part-time faculty benefits.
- When dropping below 0.5 FTE, the faculty member’s appointment must change to TAR (Time-as-reported). There are statutory limited benefits associated with the TAR rank by which the University must abide. An offer letter or contract is required for faculty changing from full or part-time to a TAR status.
- OAA *may* make an exception to coding a faculty member as TAR, the statutory limitation on benefits remains. Please contact OAA with any questions.
- Promotion and Reappointment Manager System (PRM): *Initial Appointments, Promotions and Reappointments at Senior Faculty ranks* should be submitted via PRM as noted in the relevant sections of the Required Paperwork. PRM should not be used for joint appointments, changes of status, or for faculty whose appointment has lapsed. If a faculty member’s appointment has lapsed, action is possible only after the faculty member’s appointment has been made current. Please contact Grace Kane with questions.

- Template Letters: The OAA website section [For Department Chairs, Center Directors, and Administrators](#), provides several template letters, including:
- A template is available for each possible component combination as follows:
 - [C-S-T \(Clinical, Scholarship and Teaching\)](#)
 - [C-T \(Clinical and Teaching\)](#)
 - [IS-CT \(Institutional Scholarship and Clinical Teaching\)](#)
 - [I-S-T \(Institutional Scholarship and Teaching\)](#)
 - [R-C-T \(Research, Clinical and Teaching\)](#)
 - [RT \(Research and Teaching\)](#)
 - [ST \(Scholarship and Teaching\)](#)

Template for Chair's Letter Requesting Referee Letters for Promotion/Tenure Packets Template
for Chair's Letter to the Dean's Office Proposing Promotion

- Letters of Recommendation: Letters of recommendation should be written by those at the same rank as the proposed rank, or higher. For example, for appointment, reappointment, or promotion to the rank of Associate Professor, Recommendations should generally be written by those at the rank of Associate Professor (and above). Any questions should be directed to the Office of Academic Affairs.
- All received letters of recommendation, regardless of content, must be included in the appropriate appointment, promotion, or reappointment packet. Departments may not choose and include only those letters they feel are the most complimentary.
- Internal Referees: Any faculty member with an appointment at the University of Rochester is considered “internal” – this includes all faculty with a “voluntary” appointment and all faculty with appointments in any of the other Schools (Arts, Sciences, & Engineering, Eastman, Nursing, Simon, Warner).
- Joint Faculty Appointments: Per the [*SMD Regulations of the Faculty*](#) (pg.17), Faculty members may hold full- or part-time appointments in more than one department, ordinarily at the same rank as in the primary department. Joint appointments are functional and not honorific in nature. They are intended to benefit both the faculty member and joint department by enhancing collaboration in teaching, research, clinical programs, and in other activities of the joint department. Reminder that joint appointment end dates may not exceed the term of the primary appointment, and faculty with tenured primary appointments are limited to a three-year term in their secondary appointment(s).
- Voluntary Faculty or Department Fellow Changing to Employed Status: A Faculty Recruitment Form is required for any faculty member moving from a voluntary faculty or departmental fellow position to a paid faculty position at part-time (0.5 FTE) or greater. When moving to a paid faculty position, a completed I-9, an Intellectual Property Agreement (IPA), and a Faculty Demographics Form are required, if not previously submitted.

- Reappointment of Assistant Professor: Reappointment of an Assistant Professor at the completion of the first appointment period requires a preceding departmental review of performance and of the faculty member's contributions as related to specific activity components, i.e., Research, Scholarship, Institutional Scholarship, Clinical, and Teaching, which the department chair and faculty member may have previously selected or are prepared to select for their career development.
- Departmental review is considered one of the more important points in the academic career of junior faculty. Please see the following pages: 8-9 ([SMD Regulations of the Faculty](#)) and [Appendix D](#). Do note this assessment letter becomes the faculty member's reappointment letter, and they will receive a copy of the letter after the Dean concurs with the reappointment.
- Secondary Faculty appointment for Trainees: For those in ACGME Accredited Fellowships, to be granted a secondary appointment as Instructor, a letter of approval is required from the Office of Compliance allowing the trainee to practice/bill for services outside the scope of the training program. Departments should upload required paperwork supporting the addition or reappointment of a secondary instructor appointment to Academic Affairs in Box so that the secondary appt can be reviewed appropriately.
- Salary source(s) for Research Assistant Professors, Research Associate Professors, and Research Professors: Faculty in these ranks should not be paid 100% from a GR5 (grant) account.
- Terminations: All 510 forms terminating faculty appointments must be signed by the Chair or Center Director and routed to OAA for the signature of the Vice Dean for Academic Affairs. A letter of resignation is required for any faculty member at the level of Assistant Professor or higher. In the "remarks" section of the 510, please indicate the faculty member's new employer or future plans, if known. See page 27 of the Required Paperwork for further guidance. If the Chair chooses not to reappoint a faculty member, this must be first reviewed with the Vice Dean for Academic Affairs. Letters of non-reappointment should include appropriate notice and be vetted by the Office of Counsel and the Vice Dean for Academic Affairs prior to being presented to the faculty member. Please contact OAA to discuss process and requirements.
- Other Common Issues: Please refer to the [SMD Regulations of the Faculty](#) for guidance on Policy & Procedures for Extending the "Academic Clock", Appointment length by faculty rank, Assistant Professor Appointment length, etc.
- Vacation Payout: Per the Chief Financial Officer of the UR Medical Center, there is no pay out of unused faculty vacation days.
- eCV: All full-time and paid part-time faculty are required to have an eCV. New paid faculty are required to have their CVs in the [eCV database](#) within 30 days of hire. This is required because the faculty webbios on the URM website are fed by the eCV. Please note that many faculty members may prefer to keep a Word document with their full CV; they are strongly encouraged to use the CV template found in the [SMD Regulations of the Faculty](#), Appendix II.
- Medical Staff Appointment: For new faculty requiring a Medical Staff appointment OAA will contact Medical Staff Services to ensure the "file is clear". Academic Affairs will then proceed with the faculty appointment.
 - o Academic Affairs cannot proceed with the faculty appointment until this clearance is received.

To: Department Chairs and Center Directors

From: Jeffrey M. Lyness, MD

Re: Procedure for Evaluation of Assistant Professor Prior to First Reappointment

In 2002, the Dean's Office instituted the process for conducting the required review of assistant professors at the end of their first term, and for communicating this evaluation to individual faculty. At that time, the Dean's Office, Department Chairs, and Center Directors agreed that such letters are to be prepared by chairs, center directors (or both when appropriate) since they are most familiar with the faculty member's academic accomplishments, professional contributions, and plans for the future. This plan was initiated on October 1, 2002, with the sequence of steps outlined as follows:

- During the last year of the initial appointment (i.e. the third or fourth year), the faculty member should meet with the Chair (Center Director or both) for a detailed review of his or her academic progress. It may be desirable, when appropriate, to include the relevant Unit or Division Chief in such a meeting. The review should incorporate internal (departmental) review of the quality of the faculty member's efforts, drawing on the faculty member's prior annual reviews by the Chair or Chair-designee.
- An up-to-date copy of the candidate's CV, and a minimum of three letters of recommendation (usually internal) should be obtained.
- The Chair (and Center Director) should prepare a summary letter, addressed to the Vice Dean for Academic Affairs (VDAA), which should include the following elements:
 - ✓ A brief description of the candidate's graduate educational background, specialty training, research training, board certification and experience, as appropriate.
 - ✓ A brief description of the faculty member's original goals and responsibilities, based on the original offer letter, and his/her subsequent activities in the areas of education, research, clinical and/or administrative service, as appropriate.
 - ✓ An assessment of the candidate's academic achievements, professional contributions, progress in achieving his/her goals, and success in integrating his/her activities within the department or center. This critical assessment should be done in the context of the candidate's chosen activity components (i.e., Research, Scholarship, Institutional Scholarship, Clinical, Teaching), which, as you know, must be specified at this time, at the latest.
 - ✓ A final paragraph summarizing the candidate's performance to date. This summary should also include, when warranted, specific recommendations to the candidate for further actions in any area of academic endeavor that should be pursued during the

second term of his/her appointment to assure subsequent promotion based on excellence in the designated components.

- ✓ The letter should conclude with a sentence recommending reappointment and, in addition to the chair's signature, should include a line for the Dean's signature. In accordance with our *Regulations of the Faculty*, the letter must show that the candidate is to receive acopy.
- The entire reappointment packet should then be sent to the SADAA. If, after review, the SADAA concurs with the evaluation, he/she will present the letter to the Dean for signature. Should the SADAA have questions or disagreements with any aspect of the chair's letter, such issues should be resolved, and changes made, as appropriate, prior to presenting the letter to the Dean for signature.

Over the past months, these letters have less and less often included all these items. For academic, legal, and human resource reasons, it is very important to consistently adhere to this format. Thank you very much for your cooperation and for your assistance with this.

Template for Chair's Letter to the Dean's Office Proposing Reappointment as Assistant Professor (CST)

Dear Dr. Baumhauer,

I am writing to propose the reappointment of [faculty member's name] as Assistant Professor of [Department] based on [her/his] excellence in the anticipated components of Clinical, Scholarship, and Teaching, for a term of [two or three] years.

[summary of faculty member's background and training, and current roles in the Department, URM, regionally/nationally if appropriate]

[separate paragraphs describing excellence in each anticipated activity component — recognizing that, at the time of reappointment as Assistant Professor, their accomplishments in each area are typically still emerging and do not yet fully meet the criteria for promotion in rank — using language as follows]

Scholarship: [summarize evidence for (non-Research) scholarship “demonstrating a developed, in- depth approach of the highest quality to an area of focused interest,” as evidenced by [specific points from Regulations of the Faculty Appendix Ic]].

Clinical: [summarize evidence for “specialized professional services of the highest quality in patient care or other aspects of URM missions” as evidenced by [specific points from Regulations of the Faculty Appendix Ic]] It is most helpful to provide descriptions of the nature of the faculty member's expertise and professional services, including a general sense of how much time/effort they spend on their clinical practice. As applicable, it also is helpful to provide metrics or other relatively objective evidence regarding the quality, innovation, or impact of the faculty member's clinical activities.

Teaching: [summarize evidence for “excellence in teaching contributions,” broadly defined, as evidenced by [specific points from Regulations of the Faculty Appendix Ic]] It is helpful to provide descriptions of the faculty member's primary educational responsibilities, including a general sense of how much time/effort they spend on these. As applicable, it also is helpful to provide metrics or other relatively objective evidence regarding the quality, innovation, influence, or impact of the faculty member's educational activities.

Service, Leadership, & National Recognition: [summarize evidence for the faculty member “using her/his expertise and skills in any of the above components to the benefit of their department, the SMD, the University, and/or their field or discipline,” which may include leadership at local, regional, national, or international levels depending on career path, as evidenced by [specific points from Regulations of the Faculty Appendix Ic]]

[Please note that the faculty member's professional efforts working with the community, or fostering diversity, equity, or inclusion, should be described as applicable to their activity components and/or as part of their service or leadership to the institution or field]

In recommending this faculty member for academic reappointment, *[this faculty member has consistently demonstrated behaviors in keeping with our professionalism values, standards, and expectations] or [any significant professionalism concerns have been remediated to a degree sufficient to make this recommendation].*

[Also please note that quotations from referee letters either should not be used, or should be used in de-identified form, because the faculty member will receive a copy of this letter after it is finalized.]

[Close with summary paragraph, restating the proposed reappointment, anticipated components, and term]

[chair signature]

I concur with the above reappointment based on excellence in the anticipated components of Clinical, Scholarship, and Teaching, effective [effective date] through [end date]

David C. Linehan, MD
CEO, University of Rochester Medical Center
Dean, School of Medicine and Dentistry
Senior Vice President for Health Sciences

Alternate language for faculty with expiring work authorization:

I concur with the above reappointment based on excellence in the anticipated components Clinical, Scholarship, and Teaching, effective *[effective date]* through *[work authorization end date]*. Upon renewal of work authorization, this appointment will be extended to the full complement of the reappointment period.

UNIVERSITY OF ROCHESTER SCHOOL OF MEDICINE AND DENTISTRY

A “FAST TRACK” PROCESS FOR PRELIMINARY REVIEW OF PROPOSED NEW SENIOR FACULTY APPOINTMENTS OR PROMOTIONS

A JUSTIFICATION:

- When recruiting candidates for senior faculty appointments (i.e., associate professor and professor) in either basic or clinical sciences, the pool of viable candidates is frequently small, recruitment processes and negotiations may be protracted and, once a candidate accepts the offer, timelines for meeting a mutually desirable appointment start date are frequently short.
- Because of the above, an initial appointment as “Interim Professor” has often been used as a mechanism to allow the faculty member to be placed on the University of Rochester payroll and begin working, while awaiting the assembly and final review of all required appointment materials by the *ad hoc* and Steering Committees.
- Frequent use of such a mechanism creates problems – among them:
 - ❖ It anticipates and presumes endorsement by the *ad hoc* and Steering Committees of a permanent appointment as stipulated in the offer letter.
 - ❖ It has the potential for creating significant conflicts within these committees. Steering Committee members often feel conflicted, as they try to make objective judgments and recommendations free of bias.

The process outlined on the following page is designed to minimize these conflicts. The proposed approach takes advantage of the Office of Academic Affairs’ accumulated experience and expertise in offering to department chairs and center directors an informal assessment of the candidate’s academic credentials for the proposed rank/components prior to the completion of the recruitment process. The goal is to increase the likelihood that provisions in the final offer letter with respect to rank and components will be more consistent with what the ultimate recommendation of the *ad hoc* and Steering Committees might be.

B PROCEDURE:

- 1) Before an offer letter for a senior faculty appointment (i.e., associate professor or professor) in any of the academic components (Research, Scholarship Institutional Scholarship, Clinical, plus Teaching) is finalized, and optionally before an internal promotion is proposed, the department chair and/or center director will submit to the Academic Affairs office (i.e., Vice Dean for Academic Affairs (SADAA)) the following:
 - (a) A brief memo summarizing: (i) key elements in the candidate's current position, research interests, special expertise and academic/professional contributions; (ii) the candidate's proposed role in the department and medical center with emphasis on the importance of the recruitment/promotion in meeting major programmatic, clinical, and/or research needs; (iii) the candidate's proposed rank, activity components and (when applicable) anticipated administrative leadership role.
 - (b) An up-to-date copy of the candidate's CV.
 - (c) Three to four internal and/or external letters of recommendation.
Note: This requirement should be easily met. For the former, internal memos to the chair from individuals who may know or who have interviewed the candidate during visits are an appropriate substitute. For the latter, the department should already have on hand the customary number of letters of recommendation in conjunction with the candidate's initial application.
- 2) Upon receipt, the SADAA will review the above material and then either: (i) make a recommendation, within one week, with respect to the proposed rank and activity components or any other issue that may need to be addressed by the department prior to constructing the final offer letter or chair's letter of recommendation; or (ii) ask one or two members of the Steering Committee (SC) to review the material and make a recommendation to the SADAA within one week. The SADAA will transmit the above (anonymized) recommendation to the department chair/center director. This recommendation may be made via CONFIDENTIAL e-mail and, if the chair agrees, he/she will incorporate the SADAA's recommendation in the offer letter or his/her letter of recommendation for the promotion.
- 3) Once the candidate accepts the offer, in writing, the department will promptly initiate the process to assemble the full complement of materials for the normal appointment or promotion process. When the complete dossier is received in the Academic Affairs' office, the SADAA will appoint the customary 3-member *ad hoc* committee, chaired by the SC member who served in the fast-track process.
