

COVID-19 Testing: New Reporting Requirements

Date: October 27, 2020

Beginning on November 2, 2020 to comply with federal and state regulations, the following additional patient information is now required when ordering COVID-19 PCR and/or COVID-19 Antibody testing:

- Home address
- Phone number
- Occupation
- Employer name
- Work address
- Employer phone number
- Whether you work or volunteer in an elementary, secondary, or post-secondary school, and the name of such school
- Whether you attend school (if applicable)

This information will be required and captured electronically in eRecord. For all other practices, a hard copy lab requisition with the new required demographics fields will be distributed and must accompany specimens sent to UR Medicine Labs for COVID-19 PCR and/or COVID-19 Antibody testing. Testing may be delayed if the required information is not received.

If you have any questions, please contact your Lab Services Account Manager at:
