C-Reactive Protein (CRP): New reference range

Date: April 29, 2021

Effective: May 19, 2021

New reagents will improve monitoring of patients with high levels of CRP.

The new reference range will be 0-8 mg/L (revised from 0-10 mg/L). All results less than 3 will be reported as < 3.0 mg/L.

This change will go into effect on May 19, 2021.
