

Required regulatory information: Immunophenotyping by Flow Cytometry

Date: March 4, 2019

Effective Date: April 22, 2019

This notification is as required by NYS Department of Health.

The Clinical Flow Cytometry Laboratory will now be performing immunophenotyping using the Beckman Coulter Navios Flow Cytometry instrumentation.

There is no change to the sample type of whole blood anticoagulated with EDTA (lavender top).

For questions or additional information, contact Tia LaBarge, Clinical Flow Cytometry Lab Supervisor, at 275-6261 or Tia_Labarge@urmc.rochester.edu
