Urine Chemical Dependency Screening Update: Fentanyl Added to UCDS/UCDS9

Date: June 6th, 2022

Effective Date: July 6th 2022

URMC laboratories at Strong Memorial Hospital and Central Laboratory on Bailey Rd will add fentanyl screening to the UCDS and UCDS9 Urine Chemical Dependency Screens.

This enzymatic assay detects the fentanyl metabolite, norfentanyl, and has a screening cutoff concentration of 5 ng/mL to distinguish between positive and negative results.
