

Microarray Testing: Interim Change

Date: May 23rd, 2025

Beginning May 21st, 2025, DNA Microarray CGH testing for blood and tissue may be sent out to Mayo Lab.

During this interim period, specimens including Blood, Chorionic Villi, Products of Conception will be triaged by the lab and sent out accordingly.

There is no impact to test requisition forms, or ordering process expected. Please continue to send completed requisitions and consent when ordering testing, as incomplete consents/orders can delay testing.
