Infant Feeding Class

Let us help you:

- Choose how you will feed your baby
- Learn how to establish breastfeeding
- Learn how to succeed with breastfeeding if you return to work

We prioritize infant nutrition through policies that support YOUR feeding choice.

About the Noyes Infant Feeding Class

UR Medicine Noyes Health strives to support you by offering the best nutrition advice for your new baby.

Adding a new member to your family can be a challenging time.

Learning how to feed your baby before he or she is born can help alleviate some of the stress once your child is born.

This family-centered class is led by instructors that are experts in their field and will help prepare you for the exciting days ahead.

For more information or to register by phone, call
585-335-4249

Breast feeding.
Bottle feeding.
Pumping.

Which one is right for you?

You will learn:

- Health outcomes influenced by feeding choices
- How to prepare for, and begin breastfeeding
- How milk is made and milk supply is maintained
- How to position and latch a baby at the breast
- How often to feed your baby
- Troubleshooting tips
